

Buzzbar® “G” Docking Adapter

Attaches
Garmin GPS Suction Cup Pedestal Mount
Pt.# [010-10815-00](#) and [010-10823-00](#)
To Your Motorcycle Windshield
(Patent Pending)

Allows Garmin Suction Cup Pedestal Mount for Nuvi 350, 310, 360, 650, 660, 670 or 680 to securely mount to your motorcycles curved Lexan windshield for a positive mounting of your GPS. Fasten to your windshield, slide your pedestal into the adapter and go. Any surface the adapter can be screwed to can now hold your pedestals electronic device securely and still allow quick removal.

Features and Benefits:

- Places your electronics up front and center
- Less eye movement off the road ahead.
- Eliminates fall off due to lack of suction.
- Easy removal from one adapter to another.
- Easy [Installation](#).
- Greatly increases your mounting options.

Made in U.S.A.

CNC machined from a solid block of aluminum insures a precision fit to hold your suction cup pedestal securely. Stainless steel fasteners, nylon washers and stainless steel elas lock nuts are included to complete the adapter assembly.

Installation:

Requires (2) 3/16” Diameter drilled holes through your Lexan windshield. Attach the adapter to windshield; slide your suction cup pedestal with GPS into the adapter frame and your ready to go. A stop screw is provided to lock your pedestal into the adapter frame for a fixed installation.
